

## Hospice: Life-enriching services

At Vivie, we believe every moment matters—especially during life’s most meaningful times. That’s why we offer life-enriching services that support the whole person—body, mind, and spirit. Whether it’s through gentle massage, calming music, spiritual connection, or simply the comfort of companionship, these services are designed to bring peace, dignity, and joy to each day. Our goal is to help you feel supported, seen, and cared for in every way that matters most.

### Hospice volunteers

Our trained volunteers are more than helping hands—they’re compassionate companions who walk alongside you and your loved ones. Whether it’s sharing stories, offering a quiet presence, or lending support around the home, they’re here to make each day feel more connected. Love animals? Some of our locations even receive visits from four-legged friends eager to put a smile on your face.

### Massage therapy

Gentle massage techniques can do more than ease tension—it can restore a sense of calm and comfort. Our massage therapists use soothing techniques to relax muscles, reduce pain and swelling, promote better sleep, and boost mood by releasing “feel-good” hormones like serotonin and endorphins.

### Therapeutic music

Music speaks to the heart when words fall short. Our musicians bring the gift of sound—lifting spirits, easing anxiety, and sparking meaningful memories, especially for those living with dementia. Whether it’s a familiar song or a quiet melody, music brings light and connection to the moment.

### We Honor Veterans

We’re proud to care for those who’ve served. As a level 4 We Honor Veterans partner, our team receives specialized training to provide respectful, individualized support that honors the unique needs and life experiences of veterans and their families.

**“I receive massage therapy, Healing Touch, and therapeutic music. Mind you, all of them are wonderful people.”**

*- Linda Carey, former hospice patient*

Every person’s journey is different. That’s why Vivie’s hospice team offers more than care—we offer presence, peace, and personalized support. These life-enriching services—which may vary by service location—help make each day as meaningful and comforting as possible.
