

Your Hospice Care Team

Based on your medical condition, needs, and preferences, your team can include a medical director, RNs, therapists, home health aides, a social worker, spiritual care providers, and more.

Medical Director

- Leads creation of your plan
- Meets with your care team every 2 weeks
- Guides the medical aspects of care
- Oversees the medical care provided including medication management along with pain and symptom management
- Works closely with interdisciplinary team to develop and implement care plans

RN Case Manager

- Assesses your needs
- Implements your care plan, including pain management and symptom control
- Provides 24/7 on-call assistance
- Educates your family caregivers

Primary Physician

- Works with your RN case manager to implement your care plan
- Approves adjustments to your care plan and medications
- Makes referral and provides ongoing support for patient, collaborating with RN and medical director

Therapists

- Provide specialized care to help reduce your pain or alleviate your symptoms
- Help you manage physical limitations and offer techniques for maintaining activities of daily living

Social Services Worker

- Supports your emotional and social needs
- Provides emotional and bereavement support
- Assists you with advanced care planning

Home Health Aide

- Provides you with personal care
- Offers comfort, emotional support and light housekeeping

Spiritual Care Provider

- Supports your spiritual needs
- Assists your family with memorial preparations
- Communicates with your congregation

Hospice Volunteers

- Provide respite care for your family
- Offer support and companionship
- Keep vigil and provide comfort during final hours

Still here, still with you.

Comfort and care from Vivie doesn't end after you say goodbye. Our team provides grief support to patients' families for up to 13 months following end of life.
